## PROFILE

Tech Lead / Fullstack with 9+ years of TypeScript experience, including two and a half years as CTO at Minea (SaaS at €500k+ MRR and 4,000 sign-ups per day). I combine engineering rigour, product thinking, and applied AI to turn ideas into robust, scalable systems. I value readable code, simple architectures, and teams that ship without getting stuck.

Open to Tech Lead / Fullstack or CTO roles, as well as freelance work. Remote anywhere in France or hybrid around Toulon, with occasional trips to Paris.

## EXPERIENCE

### Hinte · Co-founder & CTO

Feb 2026 – Jun 2026 · 5 months

AI-powered ad intelligence for e-commerce brands and agencies, taken to prototype stage.

- Collected and matched competitor ads, customer reviews, and each brand's testing history.
- Multimodal analysis, embedding, and content clustering pipelines.
- Dashboard and MCP server to explore brand analyses.

Stack · TanStack Start, Supabase, Trigger.dev, Vercel

### Blime · Co-founder & CTO

Dec 2025 – Jan 2026 · 2 months

- Search engine capable of indexing up to 10 million YouTube creators.
- Profile enrichment pipelines: video links, posting frequency, median views.
- Launch to early users with paid subscriptions.

Stack · Next.js, Supabase, Elasticsearch, Stripe, AWS

### Minea · CTO & Full-stack developer

Apr 2023 – Oct 2025 · 2 years 7 months

Led engineering and built V2 of a SaaS at €500k+ MRR with 4,000 sign-ups per day.

- Rebuilt the architecture on Next.js and led the V1 to V2 transition.
- Performance work to handle traffic spikes from marketing campaigns and webinars.
- Embedding pipelines for images and video, and large-scale automatic ad tagging.
- AI-powered support automation.
- Technical mentorship for two developers.
- Partnered with the CDO and CMO on features, UX, and marketing needs.

Stack · Next.js, Vercel, PostgreSQL, ClickHouse, Elasticsearch, Stripe

### DBS Bank · Product tech lead & Project manager

Singapore · Oct 2020 – Apr 2022 · 1 year 7 months

Led the product engineering scope and project management in an 8–10 person team, paired with the data lead.

- Defined front-end architecture and technical roadmap for an internal CRM.
- Supported developers and unblocked technical issues.
- Coordinated teams across multiple countries.

### Decathlon Singapore · Scrum Master & Developer

Singapore · Mar 2020 – Aug 2020 · 6 months

- Built Spring Boot APIs for a new mobile e-commerce app.
- Coordinated international teams and ran agile practices as Scrum Master.

### Decathlon France · Developer & IT Ops

Sept 2017 – Mar 2020 · 2 years 7 months

- Maintained and evolved training apps, improving reliability and usability.

- Built reporting and analytics tools for business teams.

**Freelance** · Web developer

Jan 2014 – Mar 2019 · 5 years 3 months

Websites and bespoke solutions for tradespeople and independents, from discovery through delivery and iterations.
